Job Descriptions:

Role:

To develop, customize, and maintain the Odoo platform. They build custom modules, integrate with other systems, and solve complex technical challenges.

Key Responsibilities:

- Develop new custom modules and modify existing ones using Python and the Odoo framework.
- Customize views, reports, and workflows using XML, JavaScript, and CSS.
- Build and consume APIs to integrate Odoo with third-party applications.
- Perform data migration and import using Odoo's data tools and custom scripts.
- Debug and resolve technical issues and optimize system performance.
- Implement the customizations specified by the functional team.
- Follow Odoo's development best practices and version control protocols.
