Job Descriptions:

Role:

To analyze business processes, configure the Odoo system, and implement applications to meet client needs. Acts as the bridge between the client's business users and the technical development team.

Key Responsibilities:

- Conduct business process analysis and map requirements to Odoo's standard apps.
- Configure Odoo applications (Sales, CRM, Inventory, Accounting, Manufacturing, etc.) without code.
- Demonstrate and prototype solutions for client approval.
- Identify functional gaps and write detailed specifications for required customizations.
- Train end-users on how to use the Odoo system effectively.
- Perform functional testing and support User Acceptance Testing (UAT).
- Provide post-go-live support and troubleshoot application issues.
