Job Descriptions:

Role:

To design end-to-end business solutions that align with strategic goals, leveraging the SAP ecosystem. They define the functional blueprint and ensure integration and coherence across all involved modules.

Key Responsibilities:

- Lead the design and architecture of complex SAP solutions that meet long-term business strategy.
- Act as the highest-level functional authority, making key decisions on solution design and process integration.
- Evaluate and recommend best practices and new technologies within the SAP landscape.
- Oversee the functional team, ensuring configuration and customization align with the architectural blueprint.
- Resolve complex functional issues and cross-module integration challenges.
- Lead workshops with senior stakeholders to translate business vision into a scalable SAP architecture.
- Govern the functional scope, manage change requests, and ensure solution integrity throughout the project lifecycle.
